For **IMMEDIATE** Release

LIFTING of the Preventive Boil Water Advisory **For the entire aqueduct network of Ville de Châteauguay and** **municipalities served**

Châteauguay, February 1, 2024 – All residents of Châteauguay and other municipalities served by the Régie intermunicipale d'aqueduc de la Vallée de Châteauguay, namely Mercier, Léry, Saint-Urbain-Premier, Sainte-Martine and Saint-Isidore (Petit Rang and Grande-Ligne sector), **NO LONGER** have to boil the water before consuming it. The preventive boil water advisory issued on January 29 is therefore **lifted**.

The most recent analysis results show that our water meets government standards in all respects regarding the quality of drinking water.

We thank the residents of Châteauguay, those of other municipalities served by the Régie as well as the community in general for their understanding and collaboration.
